Open bugs in Rally:

DE6791 Registration component doesn't handle low memory conditions

DE8157 Merge screen(UR4ee) appears twice while we perform the merge between social acccounts

DE8866 UI Issue-Text in the text box is not displayed correctly(Arabic language-Create My Philips, My Philips screens)

DE8867 User previously entered data is not cleared when we tap on back button from My Philips Screen

DE9090 Invalid error is triggered when tapping on resend option after verifying the email.

DE9499 Incorrect account activation response to the user in the mobile web view after tapping on 'Verify and activate' via mobile

DE10269 The user is not shown with any network error message and the app just keep showing loading indicator and stops in the Low network

DE8086 Merge when Twitter is second social provider for Android

DE9276 Error message is shown in english when the device language is set to Deutsch, France, Simplified Chinese, Traditional Chinese, Portugese, Russian, Arabic, Hindi

DE9283 Alignment for homepage should be right aligned for Arabic language

DE9328 **[Multicooker]**Screen transition animation customization is not allowed for Registration horizontal component

DE9869 'Forgotten Password' text font is small

DE9894 Uuid in Janrain and Logcat of Eclipse are different

DE9928 Login page fails to appear when tapping on Facebook as its giving an error message saying 'You are not logged in.....'

DE10025 Extra line division between welcome and logged in content after login

DE10134 Production - COPPA - Error occurred while processing the request when tapping on 'Confirm account and Consent' in email

DE10136 COPPA: The message 'Verification code has been expired' is observed when accepting the second Consent which received after 24 Hours.

DE10137 COPPA - Error occurs when not accepting the Consent received in email.

DE10257 Failed to refresh access token after changing the device date to Future/Past also logs are not getting displayed in the logcat

DE10280 **[HSDP]**The Refresh access token test button fails to function after killing and re-launching the app.

DE10301 The app keeps showing loading animation when tapping on opt in/opt out option in the logout screen in the Low Network/Proxy enabled network.

DE10302 The app keeps refreshing and shows the message Failed to refresh access token after keeping the app overnight with the user

logged in My Philips.

DE10341 While logging out the my philips account if we instantly tap on continue button, notice the user is not logged out (while the app is still loading logout action).

DE10345 While My Philips Account login ,we can observe on tap of login button after the spinner has started . Login button would be highlighted rather greyed out

DE10369 COPPA Production: The message 'Verification code has been expired' is observed when accepting the the first concent

DE10343 [uGrow] Registration dynamic configuration issues.

DE10388 [uGrow Android] App crash : While logging out @ the My account screen, pressing on the device back key shows the empty time line – later tapping on the Options/try to save any tracker entries.

DE10343 [uGrow] Registration dynamic configuration issues.

DE10388 [uGrow Android] App crash : While logging out @ the My account screen, pressing on the device back key shows the empty time line – later tapping on the Options/try to save any tracker entries.
